Re: Invitation to Corporate Membership of IOMP

As you may be aware the International Organization for Medical Physics (IOMP) is the world's premier professional organization for medical physics. IOMP has a membership of 84 National Member Organizations, representing more than 20,000 individual medical physicists practicing in different parts of the world. We are charged with the responsibility to promote the advancement of medical physics practice worldwide for the purpose of providing highest quality medical services for patients. Apart from working with our members, we form partnerships with international organizations and industrial companies to achieve this objective.

The IOMP invites you to obtain a closer association with this worldwide community by becoming an IOMP Corporate Member. Being a Corporate Member, your company will be listed in the IOMP website with a direct link to your company website, **will be eligible for a 50% discount on your advertising costs in IOMP publications** that include the semi-annual electronic bulletin Medical Physics World (eMPW), which is emailed actively to all our members, as well as posted on the IOMP website. Some issues of eMPW will be printed for distribution at major medical physics, radiology and possibly radiotherapy meetings.

I look forward to welcoming you to IOMP corporate membership and to gain access to the worldwide medical physics community.

You are invited to visit the **IOMP website at www.iomp.org** or contact Dr. Magdalena Stoeva, Chair of the IOMP Website Subcommittee and Editor of Medical Physics World at email address ms_stoeva@yahoo.com for further information on corporate membership and advertisement opportunities.

Sincerely,

Prof. Slavik Tabakov, PhD, Dr.h.c., FIPEM, FHEA, FIOMP
