

# Report of Gunma Event

Gunma University Heavy Ion Medical Center, Yoshiaki Kubota

Time: 17:00-19:00

City: Maebashi

Venue: Gunma University Heavy Ion Medical Center

Title: Sublation of clinical and biological research in collaboration with medical physics

Style: Lecture and free discussion

Participants: 37 (Oncologist 4, Medical Physicist 6, Radiological technologist 15, Biologist 1, Manufacturer 7, Student 4)

Program:

1. Opening remarks (Y Kubota, Gunma University Heavy Ion Medical Center)
2. Needs to medical physics from radiation oncologists (H Kawamura, Gunma University)
3. Needs to medical physics from biologists (T Oike, Gunma University)
4. Needs to medical physics from radiology technologists in carbon-ion radiotherapy (K Tsuda, Gunma University Hospital)
5. Needs to medical physics from radiology technologists in private hospital for photon therapy (T Inoue, Hidaka Hospital)
6. Future of medical physics (A Matsumura, Gunma University Heavy Ion Medical Center)
7. Free discussion (all participants)
