1 July 2022

Dear Sir/Madam,

The International Organization for Medical Physics (IOMP) is an internationally acclaimed professional body that is dedicated to the advancement of medical physics practice worldwide by disseminating scientific and technical information, fostering the educational and professional development of medical physics and the promotion of the highest quality medical services for patients.

I am the chair of Medical Physics World Board and the Editor of "electronic Medical Physics World" (eMPW) - the official bulletin of IOMP, produced annually in June and December, and circulated to 89 National Member Organisations and over 27,000 individual medical physicists worldwide. I would also like to underline the fact that this bulletin is also sent to various leading international bodies such as the World Health Organization, the European Commission and the International Atomic Energy Agency.

The layout of eMPW has been updated to make it more appealing. Herewith I attached a copy of the latest bulletin for your reference. Although principally distributed electronically we also print copies for distribution at major conferences and other relevant events, such as the AAPM Annual Meeting, European Congress of Medical Physics, International Centre for Theoretical Physics, International Conference on Medical Physics, RSNA Annual Meeting, etc. in order to raise its profile and impact.

We are soliciting advertisements for our coming issues and we would like to invite your company to consider placing an advertisement in this key publication. Please find attached our media pack, which provides further details to facilitate your decision.

Thank you.

Yours sincerely,

Prof. Chai Hong Yeong
Chair of the eMPW Board

Sally Hawking, IOMP Administrative Secretary
