

### Invitation

The Department of Radiation Oncology, Christian Medical College and Hospital Ludhiana is pleased to host a two-day workshop on 'Brachytherapy treatment techniques: procedures and planning' at CMC and Hospital Ludhiana.

This initiative aims to update knowledge and refine skills so that we are empowered to take on the practical challenges of translational changes in advanced brachytherapy procedures.

Eminent faculty will be holding the teaching sessions and will be directly supervising the training. Abstracts are invited from radiation oncology and medical physics residents for e-poster presentation. Please send the abstracts to the email below. We invite you all wholeheartedly to this educational event.
