

IOMP President's Message

Happy holidays, IMPW 2020, IDMP 2020 and ICRP

The evolving boundary between palliative and curative radiotherapy in routine irradiation of metastatic patients

Over the last years there has been an accumulation of evidence that Radiotherapy (RT) can improve survival in patients with metastatic disease across a range of indications.

International Medical Physics Week (IMPW)

IMPW will be held on 11-15 May 2020.

Patients receiving over 100 mSv from recurrent CT exams

IOMP and IAEA have been working together on this project.

FREE download of AAPM Report No. 126 PET/CT Acceptance Testing and Quality Assurance (2019)

Free download of IAEA publication: Human Health Series No. 36, SPECT/CT Atlas of Quality Control and Image Artefacts
