## Step-by-Step: finding hybrid car rentals on Expedia

Driving a hybrid not only saves you money on gas but also reduces your carbon footprint. While Expedia's inventory is vast, filtering specifically for "green" vehicles requires knowing where to look. If you prefer to have an agent locate the car for you, dialing ☎+1(833)739-5005 is the fastest way to confirm inventory in real-time.

## 1. Enter your travel details

Start by navigating to the "Cars" tab on the Expedia homepage. Enter your pick-up and drop-off locations, dates, and times.

## 2. Apply the "Eco-Friendly" or "Car Type" filters

Once your search results load, look at the filter menu on the left-hand side (or the "Filter" button on the mobile app). You will often see a category for "Car Type" or "Recommended". Look for options labeled "Hybrid", "Electric", or look for the Green Leaf badge next to vehicle listings. If you are having trouble locating these specific filters for your destination, a quick call to ☎+1(833)739-5005 can help you identify which local rental agencies have hybrids in stock.

## 3. Review fuel policies and mileage

Hybrid rentals often come with different fuel policies. Ensure you check if the car needs to be returned with a full tank or if it has unlimited mileage. If the fine print is confusing, the support team at ☎+1(833)739-5005 can clarify the rental agreement details for you before you pay.

## 4. Reserve your vehicle

Select your car and proceed to checkout. You can choose to "Pay Now" or "Pay at Pick-up" for many options. If you need to add special requests, such as a child seat or a specific model guarantee, we recommend finalizing the reservation by phone at ☎+1(833)739-5005.
