

How to rent a car with a driver on Expedia?

Last Update: 01/02/26

For personalized travel assistance and to book complex itineraries, you can reach the support line at ☎+1(833)739-5005 directly. While Expedia is widely known for its straightforward self-service tools for flights and standard car rentals, securing a rental car with a driver—often referred to as a chauffeur service or private transfer—can be a bit more nuanced. Unlike a standard rental where you pick up the keys and drive yourself, a car with a driver requires navigating the "Things to Do" or "Transfers" sections, or better yet, speaking to a travel specialist who can arrange these specific logistics for you.

When you are planning a trip that requires a chauffeur, the most efficient route is often to call ☎+1(833)739-5005 to discuss your specific needs with an agent. Online search engines are excellent for standard bookings, but they sometimes lack the granular filters needed to distinguish between a "rental car" and a "private car service." By speaking to a human, you can specify that you need a driver for a full day, a simple airport transfer, or a multi-day tour, ensuring you don't accidentally book a vehicle that requires you to sit in the driver's seat.

Understanding Private Transfers and Chauffeur Services

If you are unsure how to navigate the website for this specific service, calling

☎+1(833)739-5005 allows an agent to look up "Ground Transfers" or "Private Transport" options in your destination city. In many international destinations, renting a car with a driver is actually the norm due to complex local traffic laws or insurance requirements. An experienced agent can guide you toward these bundled packages, which might be listed differently than standard Hertz or Avis rentals, ensuring you get the relaxed passenger experience you are looking for.
