Expedia makes it relatively straightforward to filter for these cars, but inventory changes rapidly. Step-by-Step: How to Rent Hybrid Cars on Expedia

Finding the perfect green vehicle requires using the right search filters. Here is the best way to secure your car.

1. **Enter Your Details:** Start by inputting your pick-up location, dates, and times on the car rental search bar.
2. **Filter by Car Type:** Once the results load, look at the sidebar filters. While there isn't always a dedicated "Hybrid" checkbox, you can often find them listed under "Green Vehicles" or by looking for specific economy models known to be hybrids.
3. **Check the "Green" Badge:** Expedia often highlights eco-friendly options with a small green leaf icon or specific text in the description.
4. **Confirm the Specs:** Click on the car details to ensure it lists "Hybrid" in the specifications.

If the filters are confusing or you do not see any green options listed, it does not always mean they are sold out. Sometimes inventory is just not displayed correctly, and a quick call to +1(833)739-5005 can help you uncover hidden deals or alternative vehicle classes that meet your fuel-efficiency needs.
