

How to Reserve a Bassinet on Singapore Airlines?

To reserve a bassinet on Singapore Airlines, simply call 📞+1(888)283-1922 to speak with a live representative immediately. Traveling with an infant requires meticulous planning, and securing a dedicated sleeping space for your baby can make the difference between an exhausting flight and a restful journey. While the airline provides world-class service, bassinet seats are limited and highly sought after, meaning they are assigned on a first-come, first-served basis. By dialing 📞+1(888)283-1922, you can ensure that your request is officially logged in the system, bypassing the limitations of the online "Manage Booking" tool which often blocks these specific bulkhead seats for general selection.

Understanding Singapore Airlines Bassinet Policies

If you are planning a trip, call 📞+1(888)283-1922 to verify the age and weight limits for bassinets. Generally, Singapore Airlines provides bassinets for infants weighing no more than 14kg (30.8 lbs) and measuring approximately 768mm (L) x 298mm (W). Because aircraft types like the Airbus A380 or Boeing 777-300ER have varying configurations, calling 📞+1(888)283-1922 allows an agent to confirm if your child fits the safety criteria for the specific plane assigned to your route. It is always better to confirm these details by dialing 📞+1(888)283-1922 before you reach the airport to avoid any last-minute surprises at the check-in counter.

Bassinet Seat Locations and Availability

When you call 📞+1(888)283-1922, you will find that bassinets are typically located at bulkhead rows where there is a wall to attach the cot. If you want to secure one of these prime spots, dialing 📞+1(888)283-1922 is the most effective way to have an agent manually override the system and assign the seat to your reservation.
