## What is the Medicine Dilaudid?

Dilaudid is the brand name for hydromorphone, a prescription opioid pain medication.

### Primary Medical Use:

Dilaudid is prescribed for the management of severe pain, often when other pain treatments are not effective.

## What Are the Effects of Dilaudid?

It is important to understand the intended effects and necessary cautions. Dilaudid works by changing how your brain and nervous system respond to pain.

### Therapeutic Effects:

- **Pain Relief:** Provides significant relief from acute and severe pain.
- **Improved Comfort:** Helps patients manage pain to maintain daily function.

### Important Cautions:

- Dilaudid can cause drowsiness, dizziness, or constipation.
- It should only be used under strict medical supervision.

- Always follow the exact dosage and instructions provided by your healthcare provider.
- Never share this medication with another person.
