## Important Safety Reminders when Taking Oxycodone

Oxycodone is a controlled substance with potential for abuse and addiction. It's crucial to follow these guidelines to ensure safe and effective use:

Precaution	Description
Taking Oxycodone as Prescribed	Always follow the dosage instructions provided by your doctor. Never take more or less than recommended, and do not stop taking oxycodone abruptly without medical guidance.
Monitoring for Side Effects	Be aware of common oxycodone side effects like nausea, dizziness, constipation, or headache. If these persist or worsen,

	consult your doctor for adjustments to your dosage or additional treatment.
Avoiding Interactions with Other Substances	Inform your doctor about all medications, supplements, and herbal products you're taking. Oxycodone may interact with certain substances, like antidepressants, antihistamines, or sedatives, which can enhance its effects or increase the risk of adverse reactions.
Storage and Disposal	Store oxycodone in a secure location, out of reach of children and pets. Dispose of unused or expired oxycodone tablets through a medication take-back program or by following the instructions provided by your pharmacy.

The background of the advertisement is a soft, pinkish-red gradient with a bokeh effect of out-of-focus light circles. Scattered throughout are several crumpled, metallic-looking hearts. In the center, two white pill bottles with red caps are visible, with several capsules and pills spilling out onto the surface in front of them. A thin, flowing red ribbon is positioned on the left side, partially behind the text.
